

BIP "International Sustainable Management and Reporting"

Call for Students Applications

Introduction

The University of Parma, Grenoble Ecole de Management, Alexandru Ioan Cuza University of Iasi, Universidad de Zaragoza, Universidade de Coimbra and Kwansei Gakuin University offer their students the opportunity to participate in a Blended Intensive Programme (BIP).

BIPs are one of the new and innovative formats of student mobility introduced by the new Erasmus+ 2021-2027 Programme. These programmes, jointly developed by multiple higher education institutions, feature advanced and innovative pedagogical approaches that combine short-term face-to-face (physical) mobilities with portions of virtual learning.

BIPs are inherently transnational and transdisciplinary, as curricula are developed and taught together by partner institutions in different countries. The combination of in-person and virtual learning spaces allows students and professors to experience and exchange highly collaborative, challenge-based and research-steeped methods of teaching and learning.

Through the required virtual part of the programme, students and professors alike have the opportunity to develop and hone their digital knowledge and skills, reflecting the European Commission's priority to harness the potential of digital technologies for teaching and learning and to develop digital skills for all.

Description of the program

The aim of the course is to encourage students to develop a business plan with a long-term perspective as to how a business (or other) organisation can transform itself both in terms of broad strategy and day-to-day operations to contribute to a more sustainable socioeconomic development. Sustainability will be studied under at least its three most basic pillars: economic (profitability); social (contribution to harmonious relationships in society and with all stakeholders in particular) and environmental (net impact on the natural environment in resource usage and waste disposal). To this extent, the course goes beyond a traditional business plan, where the focus might only be on the bottom-line profitability but will still include profitability estimates as the pillar of economic sustainability of the proposed plan. Sustainable development is understood in the classic Brundtland sense as «development which meets the needs of the current generation without compromising the ability of future generations to meet their needs»; and the UN Sustainable Development Goals (SDGs) will serve as a backdrop to illustrate distinctive ways in which different businesses can make their contribution to sustainable development.

By taking this course, students can improve their understanding of global business, cross-cultural competency, analytical skills, and international team building including online communication and management skills related to business issues.

Language of teaching: English.

The BIP awards 6 ECTS credits to the students at University of Parma and allows the participation of 10 participants, distributed – if applications come in – across the Bachelor and Master level students of the Degrees taught at the Department of Economics and Management

Program location(s) for in presence lessons: Grenoble Ecole de Management, 12 rue Pierre Sémaré, 38000 Grenoble (FR).

Eligibility criteria

To apply for this program, students must be regularly enrolled at the University of Parma. **Please note that because the University of Parma is a Mobility Partner in this BIP, University of Parma students currently on an exchange mobility are not eligible to participate in this call, because the cumulation of simultaneous mobilities is not allowed.**

At the time of the application submission, applicants must possess an English language competence at the B2 level (CEFR), or above.

How to apply

Students interested in participating should submit their Application Package, in one single PDF file, to protocollodipscienzeea@unipr.it by the deadline set on January 27th, 2026 at 23:59.

The following documents must compose the candidate's Application Package:

1. A PDF scan of a current Identity Document
2. A Curriculum Vitae in English, from which it is possible to gauge – among others – the candidate's participation in international educational programmes and the knowledge of languages different from English
3. A Motivation Letter not exceeding 2000 characters (spaces excluded) in length
4. Transcript of Records/A certificate of enrolment at the University with a list of passed exams and grades

Students shall prepare a single PDF file with the documents above, in the order suggested above (i.e., Identity Document, Curriculum Vitae in English, Motivation Letter and Transcript of Records) and save it with a filename “Surname.Name.pdf”. Please note that the requirement on the type of the file (i.e., PDF only) and the naming convention (i.e., “Surname.Name.pdf”) are mandatory.

Students will be notified of their selection into the programme by January 30th, 2026.

Selection criteria and procedures

An appointed committee, formed by Prof. Mario Veneziani, Prof. Erica Adamo, Prof. Aldo Corbellini will carry out the selection procedures based on the following criteria:

- Criterion 1: Average Student Grade (up to 50 points out of 100)
- Criterion 2: Language Competence (up to 20 points out of 100)
- Criterion 3: Curriculum Vitae (up to 20 points out of 100)
- Criterion 4: Motivation Letter (up to 10 points out of 100)

Financial support

The University of Parma awards financial support to the eight selected students according to the rules presented on pages 16 to 18 of the document at this link

https://www.unipr.it/sites/default/files/2025-11/Bando%20unico%20SMS%202026-2027_prot.pdf. Travel contributions are a function of the distance travelled and the amount per day is related to the Short Mobility schemes.
