# LEAD AS A GLOBAL CITIZEN WORLD SERIES WEBINAR 2.0

TOGETHER WE *Serve*

# CHAMPIONING GLOBAL CITIZENSHIP

Helping you to position yourself to become a global citizen and leader in the 21st century is hard enough. Adding on the multiple shocks that the Covid-19 crisis pandemic has inflicted on young people can feel devastating for your education and training. With so much at stake – the inequalities and risks reducing the productive potential of an entire generation, alongside serious impacts on young people’s mental well-being – how are you supposed to address your concerns and aspirations to **connect, to contribute and to lead?**

We can ensure that your voice is heard. The truth is the concept of **Global Citizenship** is embedded in the **United Nations Sustainable Development Goals** through **SDG 4: Insuring Inclusive and Quality Education for All and Promote Life Long Learning**, which includes global citizenship as one of its targets. By 2030, the international community has agreed to ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including global citizenship.

*We believe when young people are provided with the right tools, knowledge and network, they stand the greatest chance to champion positive societal change.*
